

**What Your Puppy Will Have When
He/She Goes Home**

- 1. Vaccinate at 7 weeks old for initial protection.**
(<http://www.dogsnaturallymagazine.com/taking-the-risk-out-of-puppy-shots/>)
- 2. De-worming appropriate for age – 2, 4, 6, 8 weeks.**
- 3. Detailed health care record.**
- 4. Puppy has been exposed/imprinted to livestock (goats and chickens).**
Please read SELECT & TRAIN tab for important information.
- 5. Puppy food for 3-4 days. We recommend at least a 3-star rated dog food specifically for Large Dog Breeds. Please read DOG FOOD REVIEWS tab for important dog food information.**
- 6. AKC registration papers**
- 7. Pedigree of your dog's ancestors**
- 8. Information about the Great Pyrenees breed**
- 9. Health Guarantee and Puppy Adoption Contract**
- 10. Lifetime support from us.**
